Re: CWA Annual Scholarships

The Lake County Chapter of California Women for Agriculture is offering scholarships to graduating high school seniors and college or vocational students (regardless of gender) whose **educational emphasis is related to agriculture** and who will be attending a two or four year program as a full-time student. Scholarship recipients will receive the funds in two installments. The first installment will be paid at the beginning of the first semester conditioned on proof of full-time enrollment. The final payment will be made at the beginning of the second semester, upon receipt of full-time enrollment proof for the second semester and proof of a GPA of 3.0 or better for the first semester. Selected students will be encouraged to attend a CWA Chapter meeting during the coming year to describe course of study and how the scholarship has assisted in the pursuit of educational and career goals.

Students must:

- Be a resident of Lake County
- Have a grade point average of 3.0 or greater
- Fill out the requisite scholarship application packet, which acknowledges a pursuit of a career related to agriculture. Applications, which do not clearly convey the applicant's pursuit of a career as it relates to agriculture, will not be considered.
- Be willing to participate in an interview with the CWA Scholarship Committee if requested.

The application packet must include:

- The CWA signed application form
- A letter of recommendation
- A current or most recent transcript

The application form is enclosed and must be **received** by CWA with all other required application material on or before **April 1, 2018**. Applications without all required material will not be considered.

Please send completed application material to:
